

JD927

Volumetric Hand Dispenser

A lightweight and comfortable dispensing gun designed for dispensing from pre-filled syringes. An effortless squeeze of the trigger advances the plunger by 1/8" (3 mm) dispensing an exact amount of material every time.

Features

- Easy twist-on barrel loading
- Accurate liquid volume control
- Compact and impact resistant
- Push button release of plunger
- Dispenses from 10cc and 30cc barrels

Models

JD927	30cc hand dispenser
JD927-10	10cc hand dispenser
